EDUCATION

BSA College of Engineering & Technology (BSACET), Mathura — AKTU **2024 – 2028**
Bachelor of Technology (B.Tech) in Computer Science & Engineering | ***CGPA: 7.8 / 10.0*** **Hathras / Mathura, UP**

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (C++/Java), Database Management Systems (DBMS), Operating Systems, Software Engineering, RESTful Web Architecture.

TECHNICAL SKILLS

- **Programming Languages:** Python 3, C/C++, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Frameworks & Web Tech:** React 19, Node.js, Express.js, FastAPI, Flask, Tailwind CSS, Vite, Skyfield, ReportLab
- **Databases & Platforms:** PostgreSQL, MongoDB Atlas, SQLite, REST APIs, Git, GitHub, Vercel, Postman
- **Core Engineering:** Data Structures & Algorithms, Full-Stack Architecture, AI & LLM Integration (Google Gemini API), Anomaly Detection, Geospatial Mapping

LEADERSHIP & EXPERIENCE

Tech Manthan Student Technical Community (BSACET) **2024 – Present**
Event & Technical Community Lead **Mathura, UP**

- Spearhead technical workshops, competitive programming sessions, and hackathon training for 300+ engineering students.
- Mentor junior students in full-stack web development (React, TypeScript, Node.js), version control with Git, and system design basics.

Full-Stack Development (Independent & Client Work) **2024 – Present**
Freelance Software Developer **Remote**

- Architect and deploy high-performance web applications, e-commerce storefronts, and automated microservices with clean modern UI/UX.

FEATURED PROJECTS

MPLADS AI Sentinel — Smart India Hackathon Finalist | *React, TypeScript, Node.js, AI Anomaly Detection, Geospatial Mapping* **Live Website ■**

- Built an AI-driven anomaly and fraud detection engine for the Smart India Hackathon (SIH) to monitor public development expenditures under the Member of Parliament Local Area Development Scheme.
- Engineered automated audit algorithms to flag duplicate vendor invoices, abnormal budget milestones, and ghost developmental claims.
- Integrated interactive geospatial tracking dashboards to visually audit physical progress on map coordinates against financial disbursement logs.

Talk to Jyotisha — Astronomical Engine & Vedic Platform | *Python, Flask, Skyfield, NASA JPL DE421 Ephemeris, PostgreSQL, ReportLab* **Live Website ■**

- Engineered high-precision astronomical computation engine utilizing NASA JPL DE421 ephemeris and Skyfield to calculate exact planetary coordinates.
- Implemented Lahiri sidereal algorithms for whole-sign Vedic house systems with automated server-side generation of Kundli chart PDFs.
- Integrated OpenStreetMap Nominatim API for birthplace geocoding and automated appointment scheduling.

Heena Arora Fashion — Client Luxury Brand Platform | *React 19, TypeScript, Google Gemini Multimodal API, Tailwind CSS, Vite* **Live Website ■**

- Delivered a live commercial couture fashion storefront for designer client Heena Arora with editorial collections and high-conversion UX.
- Integrated Google Gemini multimodal AI to power an intelligent interactive styling concierge and personalized consultation bookings.
- Optimized frontend performance, achieving fluid transitions, responsive layouts across devices, and sub-second asset delivery.

HOS (House of Styles) — Brand Fashion E-Commerce Store | *React, TypeScript, Tailwind CSS, Vite, Responsive UI* Live Website ■

- Created an end-to-end modern brand storefront for the HOS fashion label featuring curated seasonal lookbooks and apparel galleries.
- Engineered interactive category and silhouette filtering, fluid shopping bag state management, and frictionless checkout intent flows.

AI Code Reviewer — Automated Source Code Quality Tool | *Python, FastAPI, React, TypeScript, LLM Analysis, AST Parser* Live Website ■

- Built a developer analysis platform that inspects multi-language code snippets to detect runtime bugs, syntax errors, and security issues.
- Employed AST parsing and LLMs to evaluate algorithmic efficiency, generating Big-O time and space complexity ratings and refactoring guidance.

HONORS & CERTIFICATIONS

- **Automate India Hackathon 2026 — Certificate of Recognition — *HackBriven & Microsoft Office Noida*** **Aug 2026**
  Recognized for outstanding innovation, technical dedication, and performance at Microsoft Office Noida.
- **GenAI Powered Data Analytics Job Simulation — *Tata & Forage*** **June 2026**
  Completed practical simulation in Exploratory Data Analysis, Delinquency Risk Prediction with AI, and AI-driven Strategy.
- **Smart India Hackathon (SIH) Finalist — *Ministry of Education Innovation Cell, Govt. of India*** **2024**
  Selected as national finalist for MPLADS AI Sentinel anomaly and fraud detection solution.
- **Full-Stack Web Development & Modern React Architecture — *Engineering Specialization*** **2024**
  Advanced React 19, TypeScript, Tailwind CSS, component architecture, and asynchronous state management.
